PROFESSIONAL SUMMARY

Experienced software developer skilled in emerging technologies, css, mern stack, restful. Strong track record building high-performance solutions for Rajyug It Solutions.

SKILLS

emerging technologies css mern stack restful version control mern js express

PROJECTS

AI Chat Application — Full-Stack AI Chat with Gemini

[Live Demo](#) | [GitHub](#)

Built a full-stack AI chat application using React, Vite, Node.js, Express, and MongoDB, integrated with the Google Gemini API for streaming conversational AI responses. Implemented secure JWT-based authentication with cookie sessions for user registration and login. Designed persistent chat history so users can create, save, revisit, and delete past conversations. Built a responsive chat UI with sidebar navigation, mirroring modern AI chat product patterns (e.g., streamed token-by-token responses). Deployed the full stack (client + server) as a single service on Render.

Technologies: React (Vite), Node.js, Express.js, MongoDB, Mongoose, Google Gemini API, JWT, Cookie-Parser, CORS

VoltBox – Personal Cloud Storage

[Live Demo](#) | [GitHub](#)

Developed a secure personal cloud storage platform using the MERN stack with JWT-based authentication and authorization. Enabled file upload, download, rename, delete, and folder/album management. Designed a responsive dashboard for efficient file organization and integrated Cloudinary for secure cloud file storage.

Technologies: React, Node.js, Express.js, MongoDB, Cloudinary, JWT

ChatFlow – Real-Time Chat Application

[Live Demo](#) | [GitHub](#)

Developed a full-stack real-time chat application using the MERN stack, Socket.IO, and WebRTC. Implemented secure JWT authentication with Email OTP verification, one-to-one messaging, real-time online/offline status, and typing indicators. Integrated media and file sharing using Cloudinary and Multer, and added voice/video calling using WebRTC.

Technologies: React (Vite), Node.js, Express.js, MongoDB, Socket.IO, WebRTC, Cloudinary, Multer, JWT

Grocery Management System

[Live Demo](#) | [GitHub](#)

Built a full-stack inventory and sales management system for grocery stores, with product management, inventory tracking, and sales modules. Implemented secure authentication, CRUD operations, and dashboards for monitoring sales and revenue.

Technologies: HTML5, CSS3, JavaScript, Node.js, Express.js, MySQL

EDUCATION

Bachelor of Engineering (B.E.), Electronics & Telecommunication Engineering

JSPM's Narhe Technical Campus
