PROFESSIONAL SUMMARY

Full Stack Web Developer with a strong foundation in MERN stack applications, eager to transition into a Test Engineer role. Possessing a keen eye for detail and experience in building robust, secure, and responsive web applications, I am well-prepared to contribute to software quality assurance. Proficient with tools like Postman and experienced in deploying applications, I understand the full development lifecycle and am committed to ensuring high-quality user experiences.

SKILLS

technicalSkills: Postman, JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, REST API Design, HTML5, CSS3, Responsive UI Design, JWT, Git/GitHub, Google Gemini API, Socket.IO, WebRTC (voice/video calling), Cloudinary, Multer, Render, Vercel

toolsAndFrameworks: React (Vite), Node.js, Express.js, MongoDB, Postman, Git/GitHub, Render, Vercel

PROJECTS

AI Chat Application — Full-Stack AI Chat with Gemini

Developed a full-stack AI chat application using React, Vite, Node.js, Express, and MongoDB, integrated with the Google Gemini API for streaming conversational AI responses.

- Developed a full-stack AI chat with Google Gemini API, featuring streaming responses and persistent chat history.
- Implemented secure JWT authentication and a responsive UI, deployed as a single service on Render.

Technologies: React (Vite), Node.js, Express.js, MongoDB, Google Gemini API, JWT

ChatFlow – Real-Time Chat Application

Developed a full-stack real-time chat application using the MERN stack, Socket.IO, and WebRTC, with secure JWT authentication and Email OTP verification.

- Engineered a real-time chat with Socket.IO and WebRTC for voice/video, and secure JWT/Email OTP authentication.
- Integrated Cloudinary/Multer for media sharing, ensuring robust one-to-one messaging functionality.

Technologies: React (Vite), Node.js, Express.js, MongoDB, Socket.IO, WebRTC, Cloudinary, Multer, JWT

VoltBox – Personal Cloud Storage

Developed a secure personal cloud storage platform using the MERN stack with JWT-based authentication and authorization for file management.

- Built a secure MERN stack cloud storage with JWT authentication, enabling comprehensive file management.
- Designed a responsive dashboard for efficient file organization and integrated Cloudinary for secure storage.

Technologies: React, Node.js, Express.js, MongoDB, Cloudinary, JWT

EDUCATION

Bachelor of Engineering (B.E.), Electronics & Telecommunication Engineering

JSPM's Narhe Technical Campus
